FIXXY COAT | Waterproofing | 17 Kgs

Product Description :-

Fixxy Coat is a high-performance, water-based, acrylic waterproofing coating designed for interior and exterior RCC and masonry surfaces. It is UV resistant, breathable, and forms a flexible, seamless film upon curing. Ideal for terrace, roof slabs, parapet walls, and other critical exposure zones.

Packing :-

- ✓ Available in 17 Kg

Health & Safety

Precautions :-

Special Features & Advantages :-

- ✓ Seamless & Elastic – Forms continuous membrane without joints.
- ✓ UV Stable – Suitable for exposed external surfaces.
- ✓ Easy Application – Single component, brush/roller/Spray applied.
- ✓ Highly Flexible – Prevents cracking due to thermal movement.
- ✓ Breathable – Allows trapped moisture to escape.
- ✓ Water washable when wet – No harsh chemicals needed.
- ✓ Spot repairable – Easy touch-up maintenance.
- ✓ Good adhesion – To concrete, plaster, and masonry.

Application :-

- ✓ RCC roofs, chajjas, parapets, and exterior walls.
- ✓ Asbestos cement sheets with scrim tape support.
- ✓ Damp proof course (DPC) beneath brickwork.
- ✓ Bathrooms, balconies, and light foot traffic terraces.

Coverage :-

- ✓ 1 kg = approx. 2 m² (2 coats) @ 200 microns DFT.
- ✓ Coverage may vary with substrate condition and method of application.

Technical Properties :-

Testing Parameters	Result
Nature	Single Component
Solid Content	65%
Base	Acrylic Emulsion (White Paint)
Specific Gravity @ 27°C	1.35 ± 0.02 gm/ml
Surface Dry Time (@27°C)	30 Minutes
Full Cure Time	7 Days
Elongation (28 days @ 30°C)	>100% at 1 mm thickness
Crack Bridging Ability	Upto 1.5mm
Pull-out Bond Strength	>0.7 N/mm ² (28 days @ 30°C)
Tensile Strength (28 days)	>0.7 N/mm ²
